

BURCO[®] APR-95

Nonionic Surfactant

BENEFITS AND FEATURES

- Effective replacement for alkyl phenol ethoxylates in cleaning formulations
- Excellent detergency for oils and greases
- Excellent wetting for hard surfaces and fabrics
- Cold water soluble, no-gelling at any concentrations
- Alkyl phenol ethoxylate (APE) free
- Produced from readily biodegradable components
- Listed on the EPA's Cleangredients[®] database

TYPICAL APPLICATIONS

- All purpose cleaners
- Laundry detergents and prespotters
- Heavy duty industrial cleaners

TYPICAL PROPERTIES

Appearance at 40°C	Clear liquid
pH (1% aqueous)	5.5
Activity, %	95
Cloud Point, 1% aqueous, °C	58
Viscosity, cP at 25°C	100
Density, lbs/gallon	8.5

FORMULATION GUIDELINES

- Burco APR-95 is compatible with cationic, anionic, and nonionic surfactants.
- Replace water soluble alkyl phenol ethoxylates (NP-9 or NP-10) with an equal amount of Burco APR-95. In some cases, lower levels of Burco APR-95 will give comparable performance.

AVAILABILITY

Burco APR-95 is available in 53-gallon, open-head, poly drums (450 lbs), in totes, and in bulk.
